

Cycling, Walking, Skateboarding and In-line Skating Expert Trainers Needed!

Are you a competent cyclist? A perfect pedestrian? Do you excel at in-line skating? Or maybe you're a savvy skateboarder? If so, Active & Safe Routes to School wants you to help us grow Making Tracks, a **province-wide active transportation safety education skills program.**

Using a train-the-trainer model, Making Tracks enlists the help of adults and youth in teaching safety skills to other youth and children. **We're looking for Expert Trainers from communities across Nova Scotia to teach these skills to Youth Mentors and Adult Leaders, so that they can train other youth and children in their communities.**

Expert Trainers are needed to lead occasional training sessions for any or all of the program's four transportation modes: walking, cycling, in-line skating and skateboarding. **It's a great opportunity to get paid to do what you love!**

We're looking for folks with experience in using one or more of these transportation modes and with some leadership, teaching or train-the-trainer experience. To express your interest, or for more information, please contact:

Jennifer McGowan
Making Tracks Program Coordinator, Active & Safe Routes to School
walk@ecologyaction.ca | 902.442.5055

Making Tracks is offered through the Ecology Action Centre's Active & Safe Routes to School program with support from Transportation and Infrastructure Renewal, Mountain Equipment Co-op, the Nova Scotia Department of Justice, St. Francis Xavier University, and Skate Pass®.
